Type of Service

Survey Treatment Fountain Service WQ Sample Service Other Service

Species Treated

Filamentous, Curly Leaf Pondweed, Curly Leaf Pondweed

Comments

Surveyed the lake, observed minor/moderate growth of Filamentous Algae and Curly Leaf Pondweed. Treated the targeted vegetation with an algaecide and aquatic herbicide. Past treatment for targeted vegetation is working well, targeted rooted vegetation is decomposing and being controlled.

Spoke with Lynn regarding the treatment and the management of the lake.

L.M.S will return for further management.
