Type of Service

Survey Treatment Fountain Service WQ Sample Service Other Service

Species Treated

Planktonic
Lyngbya

Comments

Surveyed the lake, observed minor growth of Lyngbya along parts of the shoreline and Planktonic Algae throughout the lake. Treated the targeted vegetation with an algaecide to control the growth.

Past treatments are working well.

Met and spoke with Lynn regarding the treatment and the management of the lake.

L.M.S will return for further management.

Aquatic Algae Present

Aquatic Plants Present

Lyngbya
